DETAILED ACTION

1. This Office action is in response to Applicant's RCE filed January 27, 2006. Claims 1, 18-20, and 23 have been amended. New claims 26-34 have been added.

Specification

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 26-34 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The specification, as originally filed, does not disclose "a simulation" of a virtual member in front of the host vehicle.

Allowable Subject Matter

4. Claims 1-25 are allowed.
